The complexity and cost pressure of running a facility management business is very high.

What if there was a solution that significantly reduced costs and complexity?

Speed

**Pre-Prepared
mops**

Dose your mops once at the start of the day and you are ready to clean

**No wringing
or filling buckets**

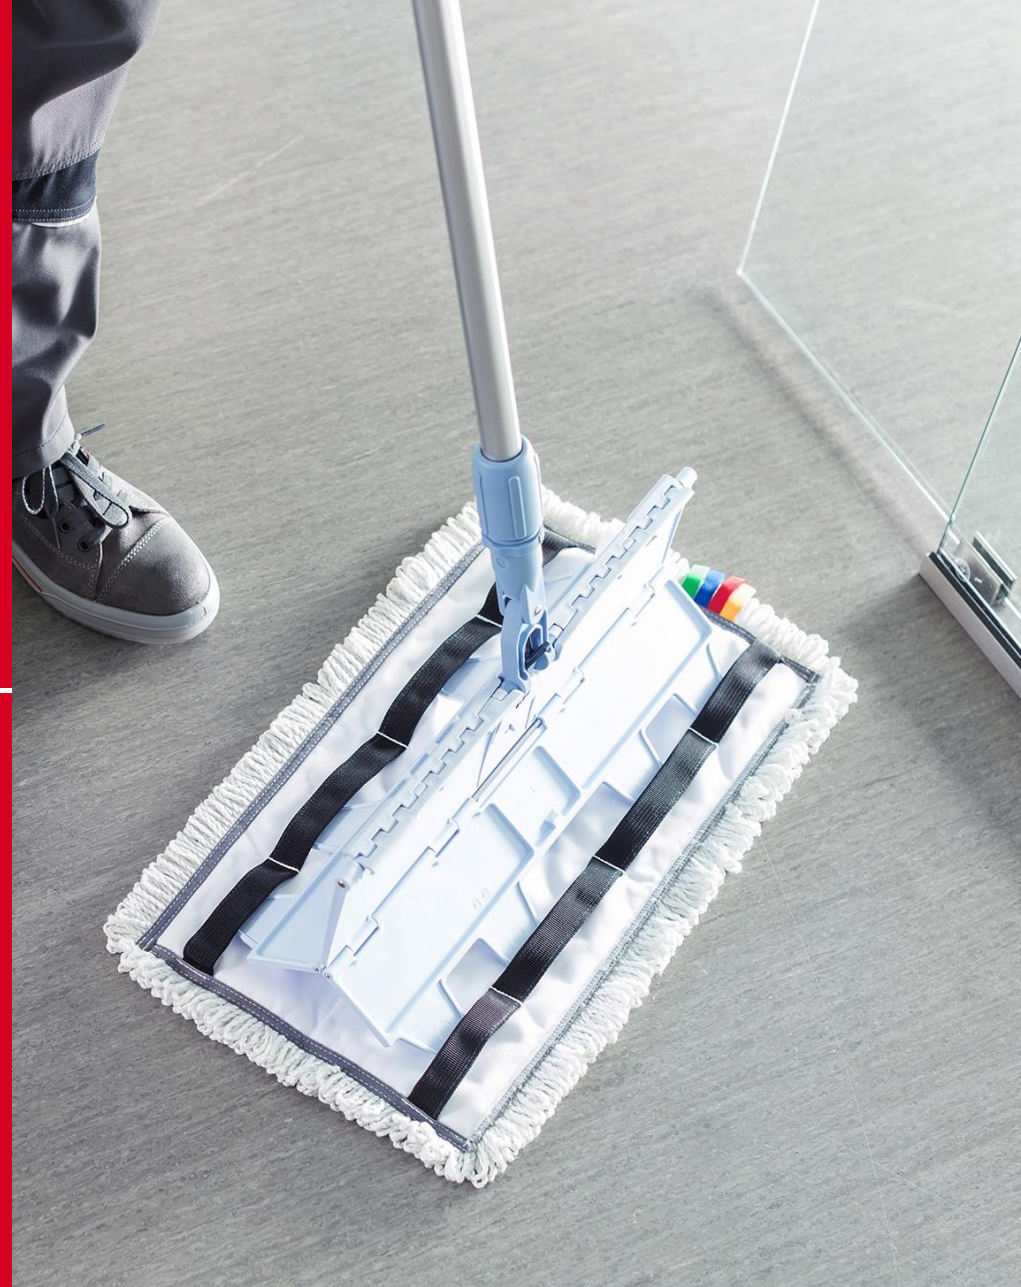

No filling or emptying of buckets or wringing of mops after each use

**Increased
floor coverage**

40m²

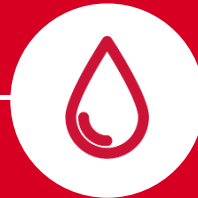

Cover upto 40m² per mop before changing. Double the distance of single sided systems

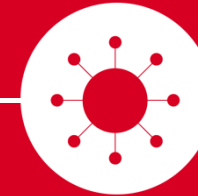

Hygiene

Pre-Preparation of mops

Batch dosing each mop with the correct amount of solution ensures only clean water is used on the floor, compared to used solution with bucket and press methods.

Proven bacteria & Virus removal

All mops are certified to remove up to 99.99% of virus and bacteria from floor surfaces

Microfibre cleaning

Pioneered by Vileda Professional and updated to meet the latest Nordic Swan ecological standards

Impact

Reduced complexity

Save time training staff as UltraFlex DUO is one system that can be used with all cleaning methods

Excellent price/performance ratio

Your investments are tailored to your needs with a choice of mops covering one, two or three year contracts

Low start up investments

Switching to pre-prepared mopping with UltraFlex Duo requires minimum investment in small laundry machines, frames and mops.
